The University
HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE-NAMED ASSOCIAtion are situated in San Francisco and are eligibly and most desirably located adjoining the grounds purchased by the Presbyterian University Society, on which College buildings are to be at once erected. The site is less than thirty minutes ride from Montgomery street; lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone's throw of

ST. MARY'S COLLEGE.

The tract will require little or no grading, there being scarcely a single lot on which it would not be safe to build without any change of grade. It commands a

Beautiful View of the Bay,

And its opposite shore, and has a wall of extreme richness. So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased whole blocks in the same tract, and design building residences thereon.

The Rev. E. Thomas, D. D.,

Is President of the Association, Lester L Robinson formerly Vice President of the Sacramento Railroad Company, is the Treasurer, and Thomas B Lewis, formerly of Portland, Secretary.

Four lots, 75x137½ feet each, constitute a share, costing $250—paid in monthly installments of $10 each, after the first payment of $20 has been made.

Maps and books giving full information of the workings of the Association can be obtained at the store of J. L. PARRISH & CO.

It is an easy and a cheap way for young men to procure property which will in a few years make them independent.

PIONEER WASHER.
JAMES BRUSIE,
AGENT FOR OREGON AND WASHINGTON TERRITORY

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public. It is unrivalled for its simplicity, durability and the rapidity and ease of its action. Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It is easily worked by one person.

This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to old housekeepers and families and washing men and washing women.

It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it.

The undersigned is now in the city of Portland, where he can be seen at Mr O Kilbourn's Store, corner of Front and Yamhill Sts., East side Portland and is prepared to furnish the Machine to purchasers and also to sell and dispose of County Rights for the sale of the same.

PORTLAND, May 8th 1867

We the undersigned certify that we have used the PIONEER WASHING MACHINE, and cheerfully recommend it as the one we have ever seen, and is in every respect just what it is represented.

Extracts from a Speech Delivered by Hon. Alvan Flanders,

UNION CANDIDATE FOR DELEGATE TO CONGRESS, AT COLVILLE, ISLAND COUNTY, WASHINGTON TERRITORY, MAY 1, 1867.

Yellow Canvas.—I have now done with what I have to say upon the great political issues which at present agitate the country. Those matters which constitute the dividing line between those who support the Government in its efforts to squelch the remaining efforts of the late rebellion to wipe out the name and nationality of the United States of America, and that it other party which withholds support and finds food for its organization in opposition to the various measures adopted by Congress to restore the insurgent States to their place in the Federal Union. The one seeks to make treason odious, and to hold its authors responsible for their parricidal attempts to destroy the Government. The other would forgive the defiant rebel who despises forgiveness, without any indemnity for the past, seeking no guarantees for the future. In such a contest every American citizen has a deep interest, and Washington Territory should not be behind in maintaining her record pure, spotless, unsullied—true to the Union—worthy of the name she bears. With you, fellow citizens, resides the power to speak her sentiments. Shall it be bold and outspoken for free dom, free institutions and the Union? Or shall her voice give aid and comfort to those who have endeavored to destroy and still persistently covet the downfall of our Temple of Constitutional Liberty and human rights? The result of this canvass to me or my competitor, is insignificant in a mere personal view, but these questions are fraught with most vital importance to us as a people, now and hereafter. Subordinate to this great question of integrity of the Union, and of peculiar interest to the people of our Territory, is the building of the Northern Pacific Railroad. That great work would supply an indissoluble link to the northwest Pacific States and Territories of the Federal Union. It would bind with bands of iron, our people to early home and kindred, thus strengthening the bonds of fraternal union and patriotic love of native land. In a military view, as a matter of national defense, how essential to us in the event of foreign war, at the same time affording the opportunity to offer our services to repel danger, when sections remote from us should be invaded by an enemy whether domestic (which Heaven forever again avert) or foreign. As a national work, so inconceivably vast are its benefits, I shall not attempt to dwell upon them, and in the brief time allotted to me I could not begin to recount the advantages which building that road would secure to the whole bolt of country through which it passed, especially to the Puget Sound country, and in fact to the whole Territory of Washington. Public necessity requires that it be built at once, the growing interests of commerce proclaim aloud that the time has arrived when this crowning work of the nineteenth century must be commenced and hastened to completion. Who will deny that to Washington Territory this would prove the great one thing needful to bring us population, to develop the wealth and unbounded resources of this Territory now hidden in yonder snow capped mountain chain, in those interminable forests surrounding our magnificent inland sea. Combine our mineral wealth, our lumber interests, our coal fields, our fisheries, our agricultural facilities, and they constitute a powerful appeal to the capitalist to invest his money. They demonstrate that such an investment would not only be profitable, but that it would confer also the proud satisfaction of opening a country to the blessings of civilization and free institutions, filling wild lands to be the homes of men and women. Out of an area of territory large enough for several States, it would be the means of preparing State after State to be added to our glorious national emblem. Before many years, within the lifetime of many who hear me, this great work would result in the vast accession to the power, the glory, the grandeur of our beloved Union. I am not an enthusiast. I speak no visionary language. The Northern Pacific Railroad will do all those things, aye, more! And while my humble efforts might be of little service in this mighty work, yet such as they are, I pledge you they shall all be directed in season and out of season, in Congress (to which I expect your suffrages will elect me) at public meetings, through the press and upon every proper occasion, to direct the public mind to the great beneficence and importance of this vast lever of Union, strength, power and territorial development to every region lying upon the line of the route.

Connecting itself intimately with this, and looking peculiarly to our local advantages as a Territory, is the urgent necessity of opening a proper road or roads, affording communication between the Walla Walla country and the junction of the interior, those rich agricultural and grazing tracts east of the Cascade mountains, and Puget Sound. There is no real ground for difference between us. There should be no diversity of interest. There is no reason that those mountains stretching the breadth of the Territory should make enmity between us, nor divide our sympathies. We on the east of the mountains want a market for our stock and our produce. You on the west side need the stock and produce we raise. We want to buy our staples, our sugar, coffee, tea, wearing apparel and the thousand necessaries of life, from other parts of the world as cheaply as we can. And it must be plain to all that goods shipped to Puget Sound and thence by land across the mountains by a road tapping and supplying the interior, can be sold cheaper, than by the present mode of receiving those supplies. This splendid harbor, this open sea without a shoal or bar for so vast a distance, would avoid the risks of the barred mouth of the Columbia river, and thus save insurance—the several transhipments rendered essential on Columbia river navigation are avoided, the high freights of the river transportation would be saved—and it must be plain to every one that all these exigences and charges must ultimately come out of the pockets of the consumer. There are several practicable passes in these mountains. Let the best one be selected, and with united purpose let us develop that, and secure a road. Soon you will need to open others, but now let us direct our united energies upon one, to the end that it may be speedily built. Citizens of the Sound, citizens of Walla Walla, Yakima, Stevens and Klikitat, your interests are one and identical. We must lean against each other, learn to depend upon each other. Let such a road be built, and sectional jealousy must cease. The division of the Territory will not then be talked about, for we are a people inseparable in community of interest, and will not be divided. Annexation to Oregon will be scouted *hereaway*, for upon our own Puget Sound, with our own transit route to supply the interior and receive its stock and produce, we will successfully compete with Portland. No! fellow citizens, we are friends. One people with one interest, with one home, one hope—the development and progress of our own Territory. And on the faith of a man, with his all centered in your midst, with wife and family calling this *home*, my future lot cast among you, I should be recreant to all I hold dear, were I to abate any effort to bring about either by Congressional aid, or Territorial influence, a conservatism to be wished. Others are to address you, whom you better know than me, more capable to please you, and I dare not linger longer on these interesting matters!

The Philadelphia Mint, if we may credit the statements of the New York *Times* is doing a lively business. We copy the following statement from that paper, which is about the biggest story we have lately heard of. If the mint goes on coining money at this rate, there will soon be enough of it to answer everybody's purposes, that is certain. We quote:

The gold deposits at the Mint of the United States Philadelphia, for the month of March, were $403,000,770 14, the silver deposits were $18,000 144 16. Total deposits, $323 000,914 30. The coinage of gold was 16 000,245 pieces, their value being $410,000,319 75, the silver coinage was 18 000,615 pieces and its value $22,607 37, the copper coinage was 4,101 750 pieces, and its value, $109,070.

Democracy Photographed

There is abundant proof that the men of the South perfectly understand the *status* of the Northern Democratic party To them it is apparent that they can hope for nothing through that party for the future The day when it might have assisted them is gone by One of the most remarkable political articles we have lately seen appears in a short time ago in the Charlottesville (Va) *Chronicle*, which for a just estimate of the Democratic party and a clear conception of its motives and objects was never surpassed The occasion of the article was the Connecticut election When every Democratic paper in the North was manifesting an intensely jubilant feeling over the result, the *Chronicle*, speaking in behalf of the South, could see no occasion for supposing the millenium was just at hand The change of a few hundred votes, by which the Connecticut election was carried it regarded as of no significance whatever After cautioning its friends "not to fly off the halve about the election, not to fall back again in hope upon the Democratic party," and after remarking that the "South had suffered sufficiently by delusions of this sort within the last two years," it proceeded in this way

The Connecticut election is a very bad thing, if it leads us anew into the bog of the 'Northern Democracy Neither the Democratic Party nor President Johnson, nor the Supreme Court is going to be of any benefit to the South The Northern people have determined to secure the practical fruits of their decisive victories and *they know that the rebellion is not over so long as the Northern Democracy is unchirpered* If there is one thing which is hated by the Northern people now, it is what they call the "Copperhead Democracy" Now the Northern Democrats want to get into power as a party again; and *they feed the Southern rebellion as a fit electioneering capital* They are perfectly willing to take our part until the matter comes to blows They backed us up manfully until April, 1861 They pressed us to "go out." But when actual war came they abandoned us, and used to bring that they furnished all the soldiers to the Union armies

This delineation is perfect It tells the whole truth about the matter The Northern people "know that the rebellion is not over so long as the Northern Democracy is undispersed," and they know that this party is playing upon the Southern question because they find it "the cheapest electioneering capital." All its professed regard for the Constitution, of which it makes so ostentatious a display, is the merest hypocrisy. The *Chronicle* continues:

Since General Lee's surrender this party has become strongly Southern again Indeed, we have habitually observed that *our friendly north of the Potomac take a warmer interest in our honor than we do ourselves* We thank the Northern Democracy for a certain measure of sympathy, but our experience in life has taught us that self interest is the great spring of human action. The Northern Democracy have not left us in peace, they have none in war They talk about the Constitution, and violation, and usurpation, and tyranny, and consolidation, but *they never fight. They set up to receive the whole fury of the storm they have, after repealing the Missouri Compromise and sustaining the Administration of Mr Buchanan brought it on to universal negro suffrage.* Since the close of the war they have stood for ward and aft as our champions, and have merely done us mischief by keeping up old party lines and old party feuds. Their object is to make party capital, and the South is merely a ball that is struck by the bats of the contending parties

This arraignment is just, The character of the Democratic party is here drawn with an accuracy which every Northern Union man will recognise as perfect. Southern men are getting their eyes open Northern Democrats are responsible for more than half their errors and misfortunes.

The article from which we are quoting closes with the following paragraph.

We fear that the petty triumph in Connecticut will revive easily awakened Democratic hopes, and that we shall hear for the tenth time of the "great Democratic Party" The result will be the Northern coldness will close up again the Radical transport will sound afresh, and the cause to agitation South, lulled for the instant, will be again set in motion This will be the result if the Democracy make any serious noise The Republican Party cannot be beaten at the North by the Democratic Party The latter party is extremely unpopular among the Northern masses. The victory in Connecticut is not owing to the strength of the Democratic Party. If a new party is organized and the old party lines against the Democratic Party dodged, there is hope of future victories at the North over the Radicals But the very moment Ben Wood & Co show their heads plainly and run up boldly the Democratic flag and call on the south to stand by them as a unit, that very moment will the North be a unit against the South and all the Democratic champions. It is hatred and fear of the Democratic Party (whose strength was in the South) that has made the Northern people so sharp and so extreme with the South. It is this hatred and fear which has kept the sore running since the war There will be no peace for the South until the Democratic Party marches off the field of battle.

The journal from which these extracts are taken is an exponent of Southern sentiment, and seems very fairly to represent Southern opinion It is very bitter against the "Radicals", but it has succeeded in telling some truths about the Democracy which that party would do well to ponder

New Manufactories.

At least two additional woolen manufactories are now projected in this State, the building of which is likely to commence soon The one at Ashland, in Jackson county, is needed to supply that region of country with goods and to furnish a market for its wool, as that portion of the State is somewhat remotely removed from these advantages The mill at the Dalles will be erected immediately, and it is intended to have the building ready as soon as the machinery can be obtained from the East There has also been some talk of a mill at Walla Walla, but whether it is to be built or not is a matter which as yet seems to be undecided

The mills now in operation, as we remarked in a recent article, have full stocks on hand, and yet are not running to their full capacity. Their fabrics are chiefly cloths, such as are in most general demand. In view of the state of the market here, and of the fact that most of our mills are engaged on the description of goods just mentioned, it would seem to be desirable that the new mills should be built with a view of running on other classes of fabrics, making a specialty of hosiery, knitted work, and goods for general underwear. Here, undoubtedly, would be found a clearer field for those who are intending to engage in manufacturing enterprises. The market needs a general variety of home manufactured goods, and large quantities of the kinds just alluded to must necessarily be imported, because our mills do not produce them Considerations like these will doubtless engage the attention of those who are building mills, and soon a wider variety of Oregon goods will be found in the market

One of the speakers at a late reconstruction meeting in Savannah, Georgia, was James Sims, brother of Thomas Sims, the fugitive slave who was seized at Boston several years ago and returned to bondage. Sims was introduced to the audience by James Johnson, late Governor of the State. He made an eloquent speech in favor of the party which gave his race their freedom What a change is here apparent! A man who a few years ago was a slave, whose brother, trying to escape, was dragged back to servitude, here standing up as a freeman and addressing an audience to whom he was introduced by the Governor of a State! Perhaps even the purblind Copperhead may yet be able to see that something has happened

The Confederate bondholders in England are still proceeding with a resolute determination to get their bonds recognized and paid by the United States They are holding meetings, employing attorneys, publishing pamphlets and preparing petitions with all the gravity which gentlemen of big wigs can assume It is proposed as an offset to these claims that our Irish American citizens demand of England payment of the bonds of the defeated Irish Republic The cases are precisely alike.

The San Francisco *Examiner*, the organ of the Democratic assassinationists of California, announces that a large number of its friends are intending to sue Gen McDowell It says "These men were dragged from their homes by the minions of this epaulotted tyrant, confined with a ball and chain to their ankles in Fort Alcatraz, and put to hard labor, for the expression of *not satisfaction* at the death of President Lincoln" Poor innocents, how they have been outraged!

JOHN HEWSTON JR. Chemist and Superintendent

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again receiving materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of materials and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum Returns made in twenty-four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent for all amounts over that sum, and one per cent. on the silver contained Returns made in twenty four hours

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS

On bullion under 300 parts gold, 2 cents per ounce
On bullion from 300 @ 600 parts gold, 4 cents per ounce
On bullion from 600 @ 750 parts gold, 6 cents per ounce
On bullion from 750 @ 940½ parts gold, 8 cents per ounce
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us

RETURNS IN COIN IN FORTY EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates

Dust and bullion can be forwarded to us from any part of the country and returns made through Wells, Fargo & Co's Express

CHARGES AT U S BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint we subjoin the tariff of charges now in force at that institution

For refining bullion under 300 parts gold, 3 cents per ounce
For refining bullion from 300 @ 600 parts gold, 5 cents per ounce
For refining bullion from 600 @ 750 parts gold, 7 cents per ounce
For refining bullion from 750 @ 830 parts gold 10 cents per ounce
For refining bullion from 830 @ 940½ parts gold, 14 cents per ounce
The charge for coinage is half of one per cent, and the charge for making fine silver bars the same

Comparing the net value of deposits for coinage with the proceeds of imported gold bars sold in the market—assuming that the bars have cost ½ per one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage

850 par to equal Mint return at refining charge of 14 cents
845 par to equal Mint return, at refining charge of 14 cents
905 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents

VANCOUVER ITEMS.—The following items are from the Vancouver *Register*. The house of C. A. Ross was entered, while he was attending the funeral of Mr. Bowder, and a desk opened and despoiled of its contents—$3 in cash.....The river is up booming. It has risen three feet in the last twenty-four hours. Lieut George Taylor left here last Monday for Camp Three Forks, Owyhee county, Idaho. He is a topo, he informs us, having held a "sit" in the Cincinnati *Commercial* office up to a few months ago, when he abandoned the "shooting stick" for the sword.....The following named persons were installed as officers of Columbia Lodge, No. 2, I O O F on Saturday, W. C. T.; Miss M Sullivan; V. T., T. C. C. Stiles; W. S. G. T. Stiles; W. F. S., Mrs. L. Ginder; W. M., S. Burgen; W. M., Mrs M S Wood; W. I. G., G. Ebert; W. O. G., Mrs. L. Brant; W. R. S., Mrs. K. Ginder; W. L. H. S., Miss L. Biers; W. D. M., Miss A. Fields; W. A. S.; Mrs. R. M. Stiles; W. C.....The motion that took place for Foreman of Vancouver No 1, for Saturday resulted in the election of Robert Glover to that office. Some question arose, however, as to the legality of the election, and another being called for Thursday night, James A Orr was chosen Foreman by a unanimous vote. Mr. Orr having refused to serve, another ballot was had which resulted in the election of Robert E. Moore as Foreman, and Edwin O'Keane as 2d Assistant.....A daughter, five or six years old, of Mr. Guy Hayden, of this city, met with a severe accident on Monday last, under the following circumstances: She and a sister some years older were riding around Mr. Hayden's farm on the Island, on an old farm horse considered perfectly gentle; the eldest child sat in front. In attempting to dismount the one behind got her foot entangled in the stirrup, which was hanging loose, and the horse took fright and ran some two hundred yards, dragging the child after it. Fortunately the string of her shoe burst, allowing the foot to escape, when she fell to the ground. When reached she was alive but insensible. Her injuries, as far as ascertained, are not as serious as at first supposed, and there is every reason to hope for a speedy recovery.

SOUTHERN RIVER MEETING.—In pursuance of a call published in the city papers, a meeting was held at Oro Fino Hall last evening at 7½ o'clock, for the purpose of aiding the Southern Relief Fund. On motion of Simon Guthrie, Esq., Judge Shattuck was called to the chair and stated the object of the meeting, after which the meeting was fully organized by the election of S. S. Briggs, Secretary, and W. S. Ladd, Treasurer. On motion, the Chair appointed the following gentleman as a committee to solicit subscriptions, viz:

First Ward—C. H. Lewis, J. C. Ainsworth, G. H. Hazleton.

Second Ward—S. S. Briggs, E. J. Northrup, S. W. Smith.

Third Ward—T. J. Carter, R. J. Ladd, C. P. Ferry.

It was moved and carried that the several churches in the city be requested to take up a collection in aid of the objects of the meeting, at such times as might best suit their convenience.

On motion, C. H. Lewis, Esq., Rt. Rev. Bishop Scott and J. C. Ainsworth, Esq., were elected as an Executive Committee, to determine upon the best method of applying funds which might be raised, and officers elected at this meeting were declared permanent officers of the Association until others should be elected in their places at a subsequent meeting, to be called by the Chairman, who was authorized to fill any vacancies occurring in Committee.

On motion, the city papers were requested to publish the proceedings of this meeting, and also call the attention of the country press to the subject.

The meeting then adjourned, subject to the call of the Chairman.

S. S. BRIGGS, Secretary.

ORDER OF I. O. O. F.—From the *Enterprise* we clip the following items: It is the intention of our townsmen, Capt. George A. Pease, to leave for California to-day, where he goes for the purpose of obtaining water pipe for the Oregon City Water Works Company.....The farmers of this county are invited to attend a meeting to be held in this city on Saturday next, 25th inst., at 12 o'clock, for the purpose of transacting business of importance with reference to the County Fair.....Lodge Society will there be attended to..... Eight years ago this month in Clackamas county there was not a quantity is produced, yet such is the fact. The Willamette valley in the south-east part of the county, accessible to towns, and is owned by Mr. E. Woddile. The productions of it have been thoroughly tested, and have not yet found wanting in any particular.....The new officers and City Constables were duly installed on Tuesday last, for the meeting of the new board being held on that evening.....On Tuesday last C. W. Dodson was arrested by officer Vandervort, and upon hearing before Justice Shaw was committed to jail in default of payment of costs for larceny of funds belonging to J. D. Manning. Judge Matlock, who volunteered to defend Dodson, a new trial was granted, and the re-hearing will come off to-day.

THE ODD FELLOWS' SUPPER.—The assemblage last evening at the supper given by the Odd Fellows of Samaritan and Multnomah lodges, in honor of the Grand Lodge of Oregon, was not less than two hundred people, nearly every one an Odd Fellow. After the supper was finished, the company was favored by the reading of numerous volunteer and regular toasts and sentiments. The toasts and responses being warmly applauded, the sentiments eapecially, without exception, were such as good men and Odd Fellows may applaud any time or anywhere. The occasion was, throughout, one of unalloyed pleasure and was continued to the "wee sma' hours" of the morning. When the adjournment took place it was too late to get up a copy of the toasts or any notice of the speeches. The supper, got up by mine host of the American Exchange, was a most decided credit to the abilities as a master of the culsine mysteries. Hereafter, Bumby must stand at the head of the Hotel Directory of Portland. In our next issue, we shall publish the toasts and, if possible, some further notice of this very pleasant reunion of brethren.

A HOUSE MORTISING MACHINE.—We, yesterday, witnessed the working of a new and novel mortising machine invented by Mr. John Cox of Lane county. It would be difficult to describe the machine though it is simple in construction. The power is applied by an oscillating lever and [illegible] working much upon the principle of an auger. It will do the work of about four men, or rather, one man can make a shortise of four inches in depth [illegible] feet in outline and very smooth in surface, in about one-fourth the time required to bore and chisel it out. The probable cost of the machine will be about $25. The great advantage secured by the machine is that it mortises can be made with it, be an upright hole or in a beam or sill, with equal facility. An application for a patent has been forwarded through the agency of Mr. Albert M. Snyder.

I. O. O. F.—Capt. Adams writes us that on the 13th inst., he instituted a lodge of Good Templars at Ames' Chapel, Washington county, with seventeen charter members. He fills in "Ames' Chapel Lodge," and the regular meetings are to be held on Saturday evenings. The following is the list of officers: Wm. N. Patton, W. C. T.; Mrs. Jane A. Davies, W. R. S.; Miss Jeanette Chipman, W. L. S.; Mrs. Lucy C. Patton, W. V. T.; James H. Taylor, W. S.; Miss Eliza F. Stott, W. A. S.; Miss Martha J. Stott, W. F. S.; Mrs. Harriet N. Turner, W. T.; Wilson H. Welch, W. M.; Miss Sarah E Stott, W. D.; Joseph S. Stott, W. I. G.; James Griffith, W. O. G.; Rev. John W. Turner, W. C; J. C. Longwell, P. W. C. T.; James F. Davies, Lodge Deputy.

MR. GROSS' FAT CATTLE.—Mr. Gross' fat steers were visited yesterday at the No. 1 Stable, by a great number of people who admired them without stint and indulged in many a vain wish that they (the visitors) might have a "piece" of unsatisfying form to make some theatrers would afford when butchered. No such lot of beef cattle was ever before seen in Portland, and it may be long before the butchers will have another such an opportunity to supply their stalls with fat beef that *is* fat. We understand that Mr. Cross offers the cattle here at 10 cents per pound, but the butchers would not offer more than 8 cents. Mr. Cross, will, therefore, drive with them this morning for Victoria via Monticello and Olympia.

THE CONGRESSIONAL CANDIDATES.—Messrs. Flanders and Low, the candidates for Congress in Washington Territory, accompanied by Mr. Garfield and other friends of [illegible] candidates, arrived here by the *Rescue* from Monticello yesterday. They go this morning to Olympia, where they will make speeches this afternoon, and will probably return to this city in the evening. Mr. Garfield and other members of the party report the prospects everywhere on the Sound country very flattering for a Union victory in the approaching election.

PROCEEDINGS OF THE GRAND LODGE.—A considerable portion of yesterday was occupied in the exemplification of the unwritten work of the order and in the discussion of the question of appeals. The following officers of the Grand Lodge were elected to serve the ensuing year: J. C. [illegible], M. W. Grand Master; Silas J. Day, R. W. Grand Master; John M. Bacon, R. W. Grand Warden; Charles N. Terry, R. W. Grand Secretary; I. R. Moores, R. W. Grand Treasurer. Representatives to the Grand Lodge—Cyrus Taylor and S. Ellsworth. The installation of the Grand Officers will take place to-day at 10 o'clock A. M.

APPOINTMENT TO THE REGULAR ARMY.—Major George E. Glenn, who has served for several years as a Volunteer Additional Paymaster, has been appointed a Paymaster in the regular army, with the rank of Major. His appointment has been confirmed. The Major is reputed to be an efficient and accommodating officer and his appointment, we learn, gives great satisfaction to his associates on duty in this Department where he will be on duty for the present.

U. S. DISTRICT COURT—DEADY, JUDGE.—Friday, May 17th: United States vs. I. A. Davenport; motion to [illegible] defendant on verdict of jury denied, and cause continued to next term on second count in the indictment; motion to reduce amount of bail denied.

United States vs. D. Farg-Aly; judgment against defendant for $50 and costs.

United States vs. John Stewart; *nolle* entered.

PRAYER MEETING.—Mr. Wm. Wadhams, Clerk of the Presbyterian Session of this city, informs us that there will be a prayer meeting this evening in the basement of the [illegible] by Asbian Church at 7½, at the close of which a meeting of the Session will be held, when any persons desiring to unite with the church, either by letter or upon profession of their faith, will have an opportunity to [illegible].

THE TURN VEREIN PIC-NIC.—We are requested by the Committee of Arrangements for the Turn Verein Pic-Nic, to state that the *Okanogan* is the only steamer employed or authorized by them to carry passengers to the Pic-Nic grounds on Sunday. The *Okanogan* will leave the foot of Morrison street at 8 A. M., 10 A. M., 1 P. M. and 3 P. M. The last return trip will be at 7 P. M.

SURVEYOR IN YAKIMA.—Mr. L. P. Beach, U. S. Deputy Surveyor from Olympia, arrived in this city by the *Rescue*, yesterday, on his way to the Yakima country, to engage in field operations for the summer. He will leave on the [illegible] boat this morning.

TREASURY BOOTY.—Wells, Fargo & Co. received by the [illegible] boat yesterday, $18,000 in treasure.

EDITORIAL CALL.—Bro. Ireland, of the *Enterprise*, rushed into our sanctum last evening with good clothes on. He refused to answer our inquiry as to how or where he got them. When asked how he came down, he said a telegram brought him, by which we were left in doubt whether he came by telegraph or some other conveyance. We shall make inquiries.

A CRICKET SCOURGE.—We have news from the Lapwai Valley that crickets have made their appearance in that valley in vast numbers and are destroying the grass, grain and gardens. Their rapacious maws seem to be insatiable and nothing but the disappearance of the last blade of grass will end their depredations, unless some means be found to destroy or drive them away.

THE SNAKES.—A report has reached the Dalles that the Snake Indians are approaching the Warm Spring Agency threatening to clean it out. A messenger, in fact, had arrived at Ft. Dalles asking for assistance to protect the Agency and drive the Snakes back. In accordance with the request the commandant at the Fort, started the Indian scouts out on Thursday.

BASE BALL CLUB.—The Wide awake Base Ball Club met last evening and organized. The following officers were elected for the ensuing year: Chas. Talbot, President, John Reed, Vice President; Chas. F. Burgess, Secretary, Isidor Koshland, Treasurer, Wm. Corbett, Mac Johnson, Albert Morton, Directors; Samuel Buchtel, Captain.

RISING.—The river, within a day or two, has risen quite rapidly and is now over nearly all the lower wharves, making it necessary to remove goods somewhat hastily. The *Register* reports that the Columbia had risen about three feet in the twenty-four hours ending Friday noon.

FELL OVERBOARD.—Yesterday just as the stage was was driving on the ferry-boat *Economy* at Milwaukie, John, the ferryman, fell overboard and came near being drowned. One of the passengers threw him a rope by which the man was, with some difficulty, rescued.

LODGE TO BE INSTITUTED.—A lodge of Odd Fellows, to be called Oriental Lodge No. 17, will be instituted in East Portland at 2 P. M., to-day, by the officers of the Grand Lodge.

PAID OFF.—Major S. Francis paid off the Indian Scouts at the Dalles on Wednesday last. The Major will start on Monday for Ft. Colville, to pay off troops stationed there.

WILLAMETTE FREIGHTS.—Arrived per steamer *Senator* from Oregon City, Friday, May 17th: 170 boxes apples, 5,066 qr sks flour, 230 bags wheat, 1 bale woolen goods.

REFRESHMENTS.—Mr. Alsky will have refreshments—ices, ice-creams, etc.—on the Turn Verein pic-nic grounds at Pleasant Grove on Sunday.

REV. C. E. ANDERSON will preach at the Baptist Church on Sunday, May 19th, 1867, at the usual hours. Sunday School immediately after the morning service.

PACIFIC SHIRTS.—Barman Bros., agents for the Pacific Shirt Manufactory, have received a large stock of them. Measures for shirts taken and shirts made to order.

NOTICE TO THE PUBLIC.—From and after this day the well-known FRENCH LAFAYETTE RESTAURANT will serve a first-class table at the reduced price of Seven Dollars per week.

THE RUSH FOR THE FAMILY DYE COLORS of Howe & Stevens is as great as ever. Once introduced to a family or neighborhood, and they spread like wildfire. The truth is, they are so nice to have about the house that every prudent and sensible matron will have them. Howe & Stevens employ some one hundred hands to keep up to orders. Sold by Smith & Davis.

The *Wide-awakes* will meet for practice Monday evening at 5 o'clock, on the Base Ball grounds.

Reconstruction in South Carolina.

SPEECH OF GOVERNOR ORR AT CHARLESTON—HE DENOUNCES THE DEMOCRATIC PARTY

At a meeting of the Charleston Board of Trade, April 2d, Governor Orr made a long speech upon reconstruction, from which we quote the following

The Act of Congress, recently passed, has assumed that this country is a conquered territory, a conquered people, and consequently that that body has a right to dictate terms. The power exists in that body to dictate these terms; it has so done for the next two years, and when they place themselves squarely and broadly upon that platform, I for one do not propose to go to the Supreme Court or anywhere else, for the purpose of disputing that power, but in good faith I will accept the terms, humiliating as they may be, and openly, fairly and squarely urge their adoption before our people. [Great applause.] As I have said to you these terms are humiliating, and, in many respects, ungenerous and unjust, but when Congress exercises their power in spite of the President of the United States, and without regard to the Constitution which has in vain been held up to them for the last eighteen months, I see no other course for us to adopt as a matter of interest than to yield. I happen to be one of the class of persons that are disfranchised now, henceforth and forever. With reference to the disfranchising clause, I think it was an unfortunate one. According to an estimate made in the region of country in which I reside, it appears that within the limits of Anderson District alone, about 1,800 persons would be excluded from the privilege of voting. I presume that this rule will apply to entire State of South Carolina. Very many of these persons excluded enjoy the esteem, respect and confidence of their fellow citizens. Many of them, indeed, are, in my humble judgment, required in the formation of our State Government. And the absence of these gentlemen in your Convention, when it assembles for the purpose of preparing a Constitution, will be a source not only of regret to the people, but a misfortune to the State. I would therefore say to every man in South Carolina who has not been disfranchised that, as soon as the proper order has been issued, he should proceed to register his name and prepare to go to the polls to form a Constitution under which we and our posterity can live. I believe that Congress made a mistake, and they will realize it when they extend suffrage to the colored man. As some of these remarks are likely to go in print, I would here take occasion to say one or two things which I desire to go upon the record. When the emissary comes here from the State of New York, Massachusetts or Ohio, and says to the black man, "We are your friends, we are going to take care of you, vote with us; these white people cannot be trusted," I want our colored people to say to those emissaries, to the Massachusetts man, that in South Carolina, under this law, it matters not by whom it was passed, every colored man, twenty-one years of age, is entitled to his ballot, and that he would not be allowed to vote in Mississippi unless he could read and write. Say to the emissary of Ohio, who comes here for the purpose of giving advice as to how you shall vote, go back to Ohio and enlighten the heathen there before you come here, because no black man there is entitled to vote. Within the last three weeks New Jersey, Ohio and Michigan have resolved that the black man shall not vote under any circumstances whatever. I know there is an apprehension wide spread in the North and West that, after the reconstruction of the Southern States, we shall fall into the arms of our old allies and associates, the old Democratic party. I say to you, gentlemen, however, that I would give no such pledges. We have accounts to settle with that party, gentlemen, before I, at least, will consent to affiliate with it. ["Good, good," and applause.] Many of you well remember that when the war first commenced great hopes and expectations were held out by our friends in the North and West, that there would be no war, and that if it commenced it would be north of Mason and Dixon's line, and not in the South. You know, sir (turning to Gen. Sickles), that faith was pledged, and I will now state that if that faith had been properly carried out there is no probability that any State but South Carolina would have seceded from the Federal Union. Again, during the pendency of the constitutional amendment, every Northern newspaper, and almost every Democrat in the country urged upon the South to reject its provisions. It was rejected. A few weeks only elapsed, and yet we find that on the passage of this Sherman bill, our Democratic friends, acting in conjunction with old Thad. Stevens, were instrumental in incorporating on that bill its most odious features. It went back to the Senate, was finally adopted, and every one of the Democratic newspapers all over the North, as far as I am informed, have come out and urged the Southern people to accept the bill. I say to you, therefore, that in my judgment it is time for us to seek new friends and a new alliance.

AN INFERNAL MACHINE FOR WAR.—Gen. Daulie, of the French engineers, has written to *Le Liberte* an account of a cannon with divergent tubes to throw musket balls. The number of these tubes will be in proportion to their calibre; and they are so arranged that at a distance of 600 metres the balls will be spread over a space of 75 metres, and at nearly equal distances from each other. The charge of powder is calculated to propel two balls at once from each tube, the trajectory of which will be the same as that of a large projectile from the same cannon. Thus a field-piece will be capable of holding 16 tubes, and discharging 32 balls at once, which at a distance of 600 metres will strike upon a space occupied by 50 men in two ranks, those in the second rank being liable to be struck by the balls which have passed through the first. This new cannon is of iron, this being a more durable metal for the purpose than bronze.

Andy Johnson and his vetoes have fallen into such contempt that not one newspaper in fifty published his last veto of the Supplemental Reconstruction bill, and not one subscriber in fifty to the few papers that did insert his Copperhead objections, read a single paragraph of it, or cared the value of a brass button what he said on the subject.

FINANCE AND COMMERCE

WEEKLY REVIEW.

PORTLAND, FRIDAY, 2 P. M., May 17, 1867.

On the 15th inst., in New York, gold was 137, having advanced from 136¾ on the previous day. In San Francisco, yesterday, legal tenders were loosely at 73½ buying and 74¼ selling. The tendency of gold, though still upward, is not so strong as one or two weeks since, and there is not the same reason to believe that it will go up to near the figures of last year at corresponding periods.

We are pleased to note in the general jobbing trade during the past week a decided improvement in some departments. This has been more marked perhaps in hardware than in anything else, though the general business of the city has a more cheerful aspect than for several months. There are now in the city a good many valley merchants, and though their orders are not large, they aggregate very encouragingly. The condition of the roads over the Blue mountains has been such as to preclude freighting across in wagons; hence, we have had no orders from the country beyond. News from Idaho is to the effect that the snows are nearly gone, and that trade will soon be opened up. The first orders will be rather large, to supply exhausted stocks. The Quartermaster's department of the army is laying in spring and summer supplies, which has the effect to enliven trade somewhat.

The flour and wheat market is still firm at the quotations of last week. The *Idaho* will take away to-morrow about forty or fifty tons wheat, and about 2,000 bbls flour, mostly on orders for export. A telegram received within the last day or two from the agent of Messrs Knapp, Burrell & Co., reports the sale of the shipment of Imperial flour which left San Francisco, March 9th, at $17 75, the highest price yet obtained for any brand except the very best St. Louis. Oregon flour has established an enviable reputation, which has every indication of being permanent.

In dry goods, trade is somewhat better. Cotton goods have gradually declined till prices are now but little above the New York quotations. Business in the east having become steadier, no further decline need be looked for here. Some articles of woolens are a little firmer, owing to the depletion of stocks consequent upon the stopping of mills. The new tariff, also, has some influence, though perhaps, not strong, in the same direction.

The prospects for wool are thus stated in the San Francisco *Market Review* of May 11th

Wool arrives very freely. Some of our largest growers are preparing their clips for shipment to Boston via the Isthmus. Thus far we have received from the spring clip 3,000 bales. Our local manufacturers are not free purchasers at present, nor do shippers appear inclined to buy freely, while Eastern orders received by telegram are at teamset prices and in diminished quantities. Thus far the market has not been up to the expectations of growers, nor is the prospect flattering for any improvement later in the season.

Groceries are pretty well settled and steady at quotations.

Dried apples are firmer, owing to limited stocks in San Francisco.

Nails have declined very decidedly. We quote at 8c, but entire invoices can be had for a materially less figure, in view of a still further prospective decline.

Reconstruction in South Carolina

SPEECH OF GOVERNOR ORR AT CHARLESTON—HE DENOUNCES THE DEMOCRATIC PARTY.

At a meeting of the Charleston Board of Trade, April 2d, Governor Orr made a long speech upon reconstruction, from which we quote the following:

The Act of Congress, recently passed, has assumed that this country is a conquered territory, a conquered people, and consequently that that body has a right to dictate terms. The power exists in that body to dictate those terms, it is no cure for the next two years, and when they place themselves squarely and broadly upon that platform, I for one do not propose to go to the Supreme Court, or anywhere else, for the purpose of disputing that power, but in good faith I will accept the terms, humiliating as they may be, and openly, fairly and squarely urge their adoption before our people. [Great applause.] As I have said to you these terms are humiliating, and, in many respects, ungenerous and unjust, but when Congress exercise their power in spite of the President of the United States, and without regard to the Constitution which has in vain been held up to them for the last eighteen months, I see no other course for us to adopt as a matter of interest than to yield. I happen to be one of the class of persons that are disfranchised now, henceforth and forever. With reference to the disfranchising clause, I think it was an unfortunate one. According to an estimate made in the region of country in which I reside, it appears that within the limits of Anderson District alone, about 1,800 persons would be excluded from the privilege of voting. I presume that this rule will apply to entire State of South Carolina. Very many of these persons excluded enjoy the esteem, respect and confidence of their fellow citizens. Many of them, indeed, are, in my humble judgment, required in the formation of our State Government. And the absence of these gentlemen in your Convention, when it assembles for the purpose of preparing a Constitution, will be a source not only of regret to the people, but a misfortune to the State. I would therefore say to every man in South Carolina who has not been disfranchised that, as soon as the proper order has been issued, he should proceed to register his name and prepare to go to the polls to form a Constitution under which we and our posterity can live. I believe that Congress made a mistake, and they will, I realize it when they extend suffrage to the colored men. As some of these remarks are likely to go in print, I would here take occasion to say one or two things which I desire to go upon the record. When the emissary comes here from the State of New York, Madame otte or Ohio, and says to the black man, "We are your friends; we are going to take care of you; vote with us; these white people cannot be trusted;" I want our colored people to say to these emissaries, to the Massachusetts men, that in South Carolina, under this law, it matters not by whom it was passed, every colored man, twenty-one years of age, is entitled to his ballot, and that he would not be allowed to vote in Mississippi unless he could read and write. Say to the emissary of Ohio, who comes here for the purpose of giving advice as to how you shall vote, go back to Ohio and enlighten the heathen there before you come here, because no black man there is entitled to vote. Within the last three weeks New Jersey, Ohio and Michigan have resolved that the black man shall not vote under any circumstances whatever. I know there is an apprehension wide spread in the North and West that, after the reconstruction of the Southern States, we shall fall into the arms of our old allies and associates, the old Democratic party. I say to you, gentlemen, however, that I would give no such pledges. We have accounts to settle with that party, gentlemen, before I, at least, will consent to affiliate with it. ["Good, good," and applause.] Many of you well remember that when the war first commenced great hopes and expectations were held out by our friends in the North and West, that there would be no war, and that if it commenced it would be north of Mason and Dixon's line, and not in the South. You know, sir (turning to Gen. Sickles), that faith was pledged, and I will now state that if that faith had been properly carried out there is no probability that any State but South Carolina would have seceded from the Federal Union. Again, during the pendency of the constitutional amendment, every Northern newspaper, and almost every Democrat in the country urged upon the South to reject its provisions. It was rejected. A few weeks only elapsed, and yet we find that on the passage of this Sherman bill, our Democratic friends, acting in conjunction with old Thad. Stevens, were instrumental in incorporating on that bill its most odious features. It went back to the Senate, was finally adopted, and every one of the Democratic newspapers all over the North, as far as I am informed, have come out and urged the Southern people to accept the bill. I say to you, therefore, that in my judgment it is time for us to seek new friends and a new alliance.

AN INFERNAL MACHINE FOR WAR.—Gen. Daulle, of the French Engineers, has written to *Le Liberte* an account of a cannon with divergent tubes to throw musket balls. The number of these tubes will be in proportion to their calibre; and they are so arranged that at a distance of 600 metres the balls will be spread over a space of 15 metres, and at nearly equal distances from each other. The charge of powder is calculated to propel two balls at once from each tube, the trajectory of which will be the same as that of a large projectile from the same cannon. Thus a field-piece will be capable of holding 15 tubes, and discharging 32 balls at once, which at a distance of 600 metres will strike upon a space occupied by 50 men in two ranks, those in the second rank being liable to be struck by the balls which have passed through the first. This new cannon is of iron, this being a more durable metal for the purpose than bronze.

Andy Johnson and his vetoes have fallen into such contempt that not one newspaper in fifty published his last veto of the Supplemental Reconstruction bill, and not one subscriber in fifty to the few papers that did insert his Copperhead objections, read a single paragraph of it, or cared the value of a brass button what he said on the subject.

FINANCE AND COMMERCE

WEEKLY EDITION

PORTLAND, FRIDAY, 2 P. M., May 17, 1867.

On the 15th inst. in New York, gold was 137, having advanced 1@1½ per cent. over previous day. In San Francisco, yesterday gold was unchanged at 73½ buying and 73¾ selling. The tendency of gold, though still upward, is not as strong as one or two weeks since, and there is not the same reason to believe that it will go up to near the figures of last year at corresponding periods.

We are pleased to note in the general jobbing trade, during the past week, a decided improvement in some departments. This has been more marked perhaps in hardware than in anything else, though the general business of the city has a more cheerful aspect than for several months. There are now in the city a good many valley merchants, and though their orders are not large, they aggregate very encouragingly. The condition of the roads over the Blue mountains has been such as to preclude freighting across in wagons; hence, we have had no orders from the country beyond. News from Idaho is to the effect that the snows are nearly gone, and that trade will soon be opened up. The first orders will be rather large, to supply exhausted stocks. The Quartermaster's department of the army is laying in spring and summer supplies, which has the effect to enliven trade somewhat.

The flour and wheat market is still firm at the quotations of last week. The *Idaho* will take away to-morrow about forty or fifty tons wheat, and about 2,000 bbls flour, mostly on orders for export. A telegram received within the last day or two from the agent of Messrs. Knapp, Burrell & Co., reports the sale of the shipment of Imperial flour which left San Francisco, March 9th, at $17 75, the highest price yet obtained for any brand except the very best St. Louis. Oregon flour has established an enviable reputation, which has every indication of being permanent.

In dry goods, trade is somewhat better. Cotton goods have gradually declined till prices are now but little above the New York quotations. Business in the east having become steadier, no further decline need be looked for here. Some articles of woolens are a little firmer, owing to the depletion of stocks consequent upon the stoppage of mills. The new tariff, also, has some influence, though perhaps, not strong, in the same direction.

The prospects for wool are thus stated in the San Francisco *Market Review* of May 11th:

Wool arrives very freely. Some of our largest growers are preparing their clips for shipment to Boston via the Isthmus. Thus far we have received from the spring 3,000 bales. Our local manufacturers are not free purchasers at present, nor do shippers appear inclined to buy freely, while Eastern orders received by telegram are at lessened prices and to diminished quantities. Thus far the market has not been up to the expectations of growers, nor is the prospect flattering for any improvement later in the season.

Groceries are pretty well settled and steady at quotations.

Dried apples are firmer, owing to limited stocks in San Francisco.

Nails have declined very decidedly. We quote at 8c, but entire invoices can be had for a materially less figure, in view of a still further prospective decline.
